SETTLEMENT ZONE - SETZ

Overview and Purpose

The purpose of the Settlement Zone is to provide for the *sustainable management* of townships located within *rural environments* where a range of residential and small-scale non-residential activities are located. Activities that are better placed in Gore or Mataura to service a larger catchment, such as *large format retail*, are discouraged. Reticulated services with the Settlements is limited, and provision for on-site servicing to service activities may be required.

Within the Gore District there are three townships provided for in the Settlement Zone, Mandeville, Waikaka and Pukerau.

Mandeville

Mandeville is located at the western *boundary* of Gore District, where it adjoins Southland District on State Highway 94, approximately 17 kilometres from Gore Town Centre. The primary focus of Mandeville township is centred around the Croydon Aviation Heritage centre, aerodrome and *aircraft* company. Adjoining the centre are commercial activities associated with the *aviation activity*. The community hall on Waimea Valley Road and the Mandeville Country Club in Flourmill Road provide additional focal points for the local community.

There is a small residential community mainly south of State Highway 94. Development is restricted, with no reticulated services being provided, and with much of the township being susceptible to flood hazard and liquefaction.

Aspirations for Mandeville include:

- The opportunity to grow in prominence as a centre of aviation and railway heritage;
- Provision for future expansion of the aviation, railway and other associated facilities to attract a greater number of visitors; and

PROPOSED DISTRICT PLAN PROVISIONS

- Reinforcement of the identity and character of Mandeville.

Mandeville Aviation and Rail Precinct (PREC8)

A Mandeville Aviation and Rail Precinct (PREC8) has been created within the Mandeville Settlement Zone, the purpose of which is to support and promote historic aviation and railway activities as a tourist destination. The precinct provisions will enhance, encourage and support Mandeville as a destination for tourists and as a hub for historic aviation and rail activities and maintain and enhance the character and function of the precinct. The area included within the precinct currently contains historic rail and *aviation activities* along with ancillary and support activities including a museum, café, shop and offices.

This chapter contains objectives, policies, and rules which apply specifically to the Mandeville Aviation and Rail Precinct in addition to the provisions of the underlying Settlement Zone. Where there is any conflict between the provisions the Precinct provisions shall prevail.

Waikaka

Waikaka is located approximately 28 km north of Gore. The township originated as part of the gold rush discovery of gold in 1867. Over time, Waikaka has developed as a service town, supporting the wider rural community, which comprises sheep, beef, grain and dairy farms. Waikaka comprises a small township, including a hall, school, churches, hotel and commercial servicing activities around which residential development has occurred.

Aspirations for Waikaka include:

- Enhancement of its role as a service town with community and small-scale commercial services to meet the needs of the immediate community and surrounding rural hinterland; and
- A community hub for events, entertainment, education and sport for the surrounding area.

Pukerau

Pukerau is located 14 km east of Gore on State Highway 1 and comprises a small township, including a hall, school, historic church, sports fields and some industrial servicing activities around which residential development has occurred.

Aspirations for Pukerau include:

- Community hub for community events, education and sport for surrounding farms and lifestyle blocks closer to the township; and
- Opportunities for new business and the expansion of existing businesses with associated employment, providing a local service role.

Objectives

PROPOSED DISTRICT PLAN PROVISIONS

- SETZ-O1 Activities within the Settlement Zone support the purpose and functionality of the township communities and contribute positively to the vibrancy, sense of community, sustainability and resilience of those communities.
- SETZ-O2 The character and qualities of the Settlement zone comprise:
1. small, low density rural settlements that have a mixture of activities including residential, small-scale commercial, community and *home business*; and
 2. a pleasant residential *environment*; and
 3. open space around *buildings*; and
 4. limited reticulated servicing.
- SETZ-PREC8-O1 Activities within the Mandeville Aviation and Rail Precinct enable and support historic aviation and railway activities.

Policies

- SETZ-P1 Enable residential activities and complementary non-residential activities that:
1. will support the economic needs of the settlement community whilst providing for social well-being; and
 2. are compatible with the purpose, character and qualities of the Settlement zone; and
 3. contribute to the social needs of the people in the surrounding area.
- SETZ-P2 Require development to be of a *height* and bulk and have sufficient *setbacks* and open space to:
1. maintain the open character and spaciousness of the zone; and
 2. ~~maintain the underlying relationship Ngāi Tahu hold with the natural *environment*~~ maintain greenspace, natural drainage patterns and riparian margins; and
 3. protect river and stream values from inappropriate development, and
 4. maintain sufficient open space to provide for landscaping, and, where needed, on-site water, wastewater and stormwater disposal; and
 5. maintain the safe and efficient operation of the rail network.
- SETZ-P3 Enable *home business* activities where:
1. they are compatible with the character and qualities of the surrounding area; and
 2. nuisance *effects* on adjacent *sites* are avoided; and
 3. traffic *effects* are managed to ensure the safety and efficiency of the *road* network; and
 4. the hours of operation are compatible with residential character and do not compromise residential amenity.

PROPOSED DISTRICT PLAN PROVISIONS

- SETZ-P4 Enable *visitor accommodation* and *homestay* activities where they are contained within a *residential unit* and adverse *effects* on residential character and amenity is managed through limiting the scale and frequency of activity.
- SETZ-P5 Enable the use of *reserve land* where the activity and/or development is consistent with the relevant Reserve Management Plan.
- SETZ-P6 Manage *light industrial activities* to ensure:
1. adverse *effects* on the residential *amenity values* of adjoining residential properties and the surrounding area are avoided; and
 2. any *light industrial* activities are of a scale and design that maintains the character of the surrounding area; and
 3. there is adequate provision for vehicle manoeuvring on-site, and *road* safety and efficiency is maintained; and
 4. any *light industrial activity* is adequately serviced.
- SETZ-P7 Ensure development does not compromise existing roading, rail and water *infrastructure* networks.
- SETZ-P8 Where practicable, incorporates low impact approaches to *stormwater* management.
- SETZ-P9 Avoid activities that are incompatible with the character, qualities and purpose of the Settlement Zone.
- SETZ-P10 Only allow new activities within the Settlement Zone where the *effects of natural hazards* can be adequately mitigated so the risk to life and property is low.
- SETZ-PREC8-P1 Enable and support historic, vintage aviation and transport activities, and *ancillary activities* which contribute to the overall aviation and rail experience within the Mandeville Aviation and Rail Precinct and maintain and enhance the purpose of the Precinct.

Notes

Note 1	Provisions in Other Chapters
	The provisions in this chapter apply in addition to the provisions of the other chapters in the District Plan and the plan should be read as a whole. This chapter also implements other chapters in the District Plan that do not have specific rules such as Sites and Areas of Significance to Māori and Mana Whenua.
Note 2	Other Legislation
	The provisions of the National Environmental Standard for ~~Plantation~~ <u>Commercial</u> Forestry which apply for <u>commercial</u> forestry

activities and permits ~~both *plantation forestry* and harvesting~~ commercial forestry except in certain circumstances such as where the District Plan has ~~have~~ more restrictive rules on Forestry on Outstanding Natural Landscapes or *Significant Natural Areas*. In those circumstances resource consent will be required from the Gore District Council.

- The provisions of the National Environment Standard for Assessing and Managing *Contaminants* in Soil to Protect Human Health which apply where a HAIL activity has been undertaken on the *land* subject to specified activities and *subdivision*. In certain circumstances resource consent will be required from the Gore District Council. In the first instance reference should be made to the register of HAIL activity *sites* held by the Gore District Council.
- The provisions of regional plans prepared by Environment Southland. This includes the taking, use and *discharge* of *water*, the *discharge of contaminants to land, water* or air and the erection of *structures* in *river beds*. In certain circumstances resource consent or permits will be required from Environment Southland.
- The relevant rules and requirements prepared by the Civil Aviation Authority for the safe operation of the Mandeville Aerodrome.

Note 3

Work or activity of the Crown

Section 4(3) of the RMA allows certain Crown activity to contravene a District Plan in relation to any work or activity on land held under the Conservation Act 1987 that is consistent with a conservation management strategy, a conservation management plan or management plan and does not have a significant effect beyond the boundary of that land. Accordingly, this chapter does not apply to Department of Conservation activities that meet section 4(3), but does apply to activities that do not meet section 4(3) of the RMA.
