RURAL LIFESTYLE ZONE - RLZ

Overview and Purpose

The purpose of the Rural Lifestyle Zone is to provide for rural lifestyle living opportunities and ensure the General Rural Zone is able to continue to function as a productive working zone that is not compromised by ad hoc or sporadic *subdivision* and rural lifestyle activities.

The Rural Lifestyle Zone is generally located on the fringe of urban settlements. Some parts of the zone reflect historical *subdivision* patterns, while other parts have been identified as suitable to transition to rural lifestyle living.

The Rural Lifestyle Zone facilitates the aspirations of those wish to live there, within a setting that retains the overall rural character, while ensuring that ~~sustainable~~ *primary production* activities are not compromised. That requires the identification of specific areas for rural lifestyle development having regard to the character and values of those areas.

General residential living at urban densities, stand-alone *retail activities* and *industrial activities* are not provided for or anticipated in the zone as they can reduce rural residential character and amenity, lead to *reverse sensitivity* and cumulative *effects*, and undermine the purpose of the Residential, Commercial and Mixed Use zones. Activities that are complementary to rural lifestyle living, such as agriculture, pastoral and horticulture activities and home occupations are provided for in the zone, at a scale appropriate to protect amenity and character values of the zone.

Hokonui Hills Rural Lifestyle Precinct (PREC11)

The Hokonui Hills Rural Lifestyle Precinct (PREC11) is located on the slopes of the Hokonui Hills. The landscape value of the precinct area are:

- Naturalness (natural elements such as landforms, or naturalistic patterns of vegetation, are more visually dominant than ‘built’ elements such as buildings or lineal shelter / woodlot plantings);
- Openness / spaciousness (provides for views into and through the area toward the Hokonui Hills);
- Landscape coherence (patterns of land use reinforce underlying natural patterns, for example landform); and
- Rural character (a large scale to the landscape, natural elements dominate, and rural land uses).

PROPOSED DISTRICT PLAN PROVISIONS

The precinct sits within the wider landscape setting of the Hokonui Hills Outstanding Natural Landscape, and the Croydon Bush Scenic Reserve, which also have landscape and biodiversity values. The purpose of PREC11 is to enable rural lifestyle living opportunities, while managing the nature and scale of development such that the landscape values of the precinct and wider area are protected.

This chapter contains objectives, policies, and rules which apply specifically to the Hokonui Hills Rural Lifestyle Precinct in addition to the provisions of the underlying Rural Lifestyle Zone. Where there is any conflict between the provisions the Precinct provisions shall prevail.

Objectives

- RLZ-O1 The Rural Lifestyle Zone primarily provides for residential activities and compatible rural activities on larger lots within *rural environments*, zoned for such use.
- RLZ-O2 The character and qualities of the Rural Lifestyle Zone comprise: ~~residential development that integrates with the natural and rural character of the area; providing a generally high level of amenity along with the operation of compatible *primary production* activities, and responding to the underlying Ngāi Tahu relationships with the natural environment.~~
1. residential development that integrates with the natural and rural character of the area;
 2. a generally high level of amenity;
 3. the operation of compatible *primary production* activities; and
 4. responding to the underlying Ngāi Tahu relationships with the natural *environment*.
- RLZ-O3 To enable rural lifestyle living opportunities whilst protecting existing lawfully established and anticipated activities adverse effects, including reverse sensitivity effects ~~arising from, and impacting on, rural lifestyle activities.~~
- RLZ-O4 The purpose and predominant character of the Rural Lifestyle Zone is not compromised by incompatible activities.
- RLZ-PREC11-O1 Recognise and protect the landscape values of the Hokonui Hills Rural Lifestyle Precinct and the nearby Hokonui Hills *Outstanding Natural Landscape* and Croydon Bush Scenic Reserve.

Policies

- RLZ-P1 Limit the range, scale and siting of activities and *buildings* within the Rural Lifestyle Zone to protect its rural-lifestyle character, and underlying Ngāi Tahu relationships with the natural *environment*.

PROPOSED DISTRICT PLAN PROVISIONS

- RLZ-P2 Where reticulated services are not available, require activities within the Rural Lifestyle Zone to be self-sufficient with regard to potable water supply and treatment and disposal of *sewage*.
- RLZ-P3 Enable *primary production* activities within the Rural Lifestyle Zone where these activities are of a scale and nature that effects on residents amenity can be managed, mitigated or avoided. they are compatible with the amenity and values of those zones.
- RLZ-P4 Provide for compatible activities, including *visitor accommodation, homestay, home business* and *rural produce retailing activities*, where they are of a scale and nature that maintain the character and qualities of the Rural Lifestyle Zone; and do not compromise residential amenity.
- RLZ-P5 Enable *buildings* and *structures* for permitted activities that maintain the character and qualities of the Rural Lifestyle zone, by requiring:
1. the density of development to achieve large areas of open space and plantings around *buildings*; and
 2. *buildings* to be of a *height* that does not dominate the surrounding area; and
 3. *buildings* to be *setback* from *boundaries* to ensure residential amenity for any nearby *residential units*; and
 4. appropriate *setbacks* to waterways to maintain and enhance *amenity values*, ecological values, Ngāi Tahu cultural values maintain access for mahinga kai practices; and reduce effects on mauri, ki uta ki tai systems, and natural character.
- RLZ-P6 Recognise the benefit of emergency services facilities and of education^{al} facilities, whilst ensuring any such facility is of a location, nature and scale that does not detract from the rural character and amenity values of the Rural Lifestyle area.
- RLZ-P7 Avoid activities ~~in the Rural Lifestyle Zone that do not have an operational need or functional need to locate there~~ are incompatible with the character, qualities and purpose of the Rural Lifestyle Zone.
- RLZ-P8 Enable the use of *reserve land* where the activity and / or development is consistent with the relevant Reserve Management Plan.
- ~~RLZ-P9 — Recognise that some Rural Lifestyle Zoned sites are working farms, and activities such as *primary production* and *agriculture aviation activities* are generally appropriate.~~
- RLZ-PREC11-P1 Limited the nature, scale and design of development within PREC11 in order to protect the landscape values of the Hokonui Hills Rural Lifestyle Precinct and the nearby Hokonui Hills *Outstanding Natural Landscape* and Croydon Bush Scenic Reserve from inappropriate development.

Notes

Note 1 Provisions in Other Chapters

PROPOSED DISTRICT PLAN PROVISIONS

The provisions in this chapter apply in addition to the provisions of the other chapters in the District Plan and the plan should be read as a whole. This chapter also implements other chapters in the District Plan that do not have specific rules such as Sites and Areas of Significance to Māori and Mana Whenua.

Note 2 Other legislation

- The provisions of the National Environmental Standard for ~~Plantation Commercial~~ Forestry ~~which~~ apply ~~for to commercial~~ forestry activities and permits ~~both plantation forestry and harvesting commercial forestry~~ except in certain circumstances such as where the District Plan ~~has have~~ more restrictive rules on Forestry on Outstanding Natural Landscapes or *Significant Natural Areas*. In those circumstances resource consent will be required from the Gore District Council.
- The provisions of the National Environment Standard for Assessing and Managing *Contaminants* in Soil to Protect Human Health which apply where a HAIL activity has been undertaken on the *land* subject to specified activities and *subdivision*. In certain circumstances resource consent will be required from the Gore District Council. In the first instance reference should be made to the register of HAIL activity *sites* held by the Gore District Council.
- The provisions of regional plans prepared by Environment Southland. This includes the taking, use and *discharge* of *water*, the *discharge of contaminants* to *land, water* or air and the erection of *structures* in riverbeds. In certain circumstances resource consent or permits will be required from Environment Southland.

Note 3 Work or activity of the Crown

Section 4(3) of the RMA allows certain Crown activity to contravene a District Plan in relation to any work or activity on land held under the Conservation Act 1987 that is consistent with a conservation management strategy, a conservation management plan or management plan and does not have a significant effect beyond the boundary of that land. Accordingly, this chapter does not apply to Department of Conservation activities that meet section 4(3), but does apply to activities that do not meet section 4(3) of the RMA.

Standards

RLZ-S1	Density	
Residential activities	1. There shall be no more than one <i>residential unit</i> per 1 hectare; except 2. within the Hokonui Hills Rural Lifestyle Precinct (PREC11) where there shall be no more than one <i>residential unit</i> per 3.5 hectares; OR 3. For <i>sites</i> under 1 hectare, there shall be no more than one <i>residential unit</i> per <i>site</i>; and 4. There shall be a maximum density of one <i>minor residential unit</i> per <i>residential unit</i>.	Activity status where compliance not achieved: Non-Complying
RLZ-S2	Height	
All activities	1. The maximum <i>height</i> of any <i>building</i> or <i>structure</i> shall be 8m above ground level; except 2. within the Hokonui Hills Rural Lifestyle Precinct (PREC11) where the maximum <i>height</i> of any <i>building</i> shall be 5m above ground level. Excluding any roof mounted <i>structures</i> such as: panels, architectural features, satellite dishes or antennas, aerials or flues, provided these do not exceed the <i>height</i> by more than 1m and is no more than 1 metre in width or length.	Activity status where compliance is not achieved: Restricted Discretionary Matters of discretion: 1. The adverse <i>effects</i> on the <i>amenity values</i> of adjoining <i>sites</i> including privacy, shading, outlook and dominance. 2. The <i>effects</i> on the character and <i>amenity values</i> of the surrounding <i>environment</i> and sense of openness.

PROPOSED DISTRICT PLAN PROVISIONS

		- Impacts on views of The Mataura Falls, Hokonui Hills, and/or Tuturau. - Whether the <i>structure</i> can be more appropriately located to minimise adverse visual amenity <i>effects</i>. - The reason for the increase in <i>height</i>. - In PREC11, the protection of the landscape values of the Hokonui Hills Rural Lifestyle Precinct and of the Hokonui Hills Outstanding Natural Landscape.
RLZ-S3	<i>Setbacks from road boundaries</i>	
All areas excluding PREC11 Hokonui Hills Rural Lifestyle Precinct	Any building or structure is setback from any road boundary the minimum distances as follows: - Residential units are setback: 40m from the boundary of an <i>Interregional Connector road</i> (state highway); 30m from the <i>road boundary</i> of an unsealed road; and 10m from the <i>boundary</i> of a sealed road. - Buildings that house animals are setback 30m; - Buildings for a <i>Rural Produce Retail Activity</i> are setback 3m; - All other buildings and structures, except fences, are setback 10m.	Activity status where compliance not achieved: Restricted Discretionary Matters of discretion: - The adverse <i>effects</i> on the amenity and character of the locality, including views from the <i>road</i>. - The adverse <i>effects</i> on nearby <i>sites</i>, including outlook, privacy, shading and sense of openness. - The reasons for the reduced <i>setback</i>. - The ability to impose <i>conditions</i> to mitigate adverse <i>effects</i> (including <i>dust</i> from unsealed <i>roads</i>), including through landscaping.

PROPOSED DISTRICT PLAN PROVISIONS

PREC11 Hokonui Hills Rural Lifestyle Precinct	5. All <i>buildings</i> are <i>setback</i> a minimum of 40 metres from any <i>road boundary</i>	5. The safety and efficiency of the <i>road</i> network. 6. Compatibility with the surrounding <i>environment</i> .
RLZ-S4	<i>Setbacks to side and rear boundaries</i>	
All activities	Any building is setback from any side or rear boundary the minimum distances as follows: 1. Residential units are setback 10m; 2. Buildings that house animals are setback 30m; 3. Buildings for a <i>Rural Produce Retail Activity</i> are setback 15m; 4. All other buildings are setback 10m.	Activity status where compliance is not achieved: Restricted Discretionary Matters of discretion: 1. The adverse <i>effects</i> on nearby <i>sites</i>, including outlook, privacy, shading and sense of openness. 2. The ability to mitigate adverse <i>effect</i> on adjoining <i>sites</i> through layout, <i>building</i> design and landscaping. 3. The reasons for the reduced <i>setback</i>. 4. The extent to which the reduction in the <i>setback</i> is necessary due to the shape or natural and physical features of the <i>site</i>. 5. For non-residential <i>building</i> the nuisance <i>effects</i> including odour and <i>noise</i>.
RLZ-S5	<i>Building Size</i>	
All activities	1. The maximum size of any <i>building</i> is 500m²; except 2. within the Hokonui Hills Rural Lifestyle Precinct (PREC11) where the maximum size of any <i>building</i> is 400m².	Activity status where compliance not achieved: Restricted Discretionary Matters of discretion:

PROPOSED DISTRICT PLAN PROVISIONS

		1. The adverse <i>effects</i> on the amenity and character of the locality, including views from the <i>road</i>. 2. The adverse <i>effects</i> on nearby <i>sites</i>, including outlook and sense of openness. 3. The adverse <i>effects</i> on Ngāi Tahu cultural values including those listed in MW-2.3. 4. The extent to which <i>buildings</i> are set back on the adjoining <i>sites</i> and the use of the intervening space. 5. The <i>height</i>, bulk and location of the <i>buildings</i> and <i>structures</i> on the <i>site</i>. 6. The reasons for the increased coverage. 7. The ability to impose <i>conditions</i> to mitigate adverse <i>effects</i>, including through landscaping.
RLZ-S6	<i>Building coverage</i>	
All activities	1. The maximum <i>building coverage</i> on any <i>site</i> is <u>10%</u> ~~1000m²~~; except 2. within the Hokonui Hills Rural Lifestyle Precinct (PREC11) where the maximum <i>building coverage</i> on any <i>site</i> is 650m².	Activity status where compliance is not achieved: Restricted Discretionary Matters of discretion: 1. The adverse <i>effects</i> on the amenity and character of the locality, including views from the <i>road</i>. 2. The adverse <i>effects</i> on nearby <i>sites</i>, including outlook and sense of openness. 3. The extent to which <i>buildings</i> are set back on the adjoining <i>sites</i> and the use of the intervening space. 4. The <i>height</i>, bulk and location of the <i>buildings</i> and <i>structures</i> on the <i>site</i>.

PROPOSED DISTRICT PLAN PROVISIONS

		5. The reasons for the increased coverage. 6. The ability to impose <i>conditions</i> to mitigate adverse <i>effects</i>, including through landscaping.
RLZ-S7	<i>Setback from rivers and streams</i>	
All activities	1. Any building or structure is set back from the top of the closest bank of any stream or river the minimum distance as follows: (a) 20m for high order rivers or streams (order 5 and above); (b) 10m for middle order rivers or streams (order 3 and 4); and (c) 5m for low order rivers or streams (order 1 and 2). <u>Except that fences of post and wire construction are permitted within the <i>setback</i> where these are:</u> (i) <u>not constructed with wire mesh;</u> (ii) <u>not located within the <i>stream</i> or <i>riverbed</i>;</u> (iii) <u>not constructed across the <i>stream</i> or river channel;</u> <u>or</u> (iv) <u>not constructed across or along a stopbank.</u> Refer to Appendix 3 for river and stream orders <u>and guidance on <i>riverbed</i> extents and the location of banks for measuring <i>setbacks</i>.</u>	Activity status where compliance is not achieved: Restricted Discretionary Matters of discretion: 1. Whether there is a <i>functional need</i> for the <i>building</i> or <i>structure</i> to locate in a riparian margin, and the extent to which alternative practicable options have been considered and their feasibility. 2. The effects on water quality and the stability and health of the stream bed and banks, including erosion and <i>sedimentation control measures</i>. 3. The nature of existing riparian vegetation and the effects of proposed planting or modification on indigenous <i>biodiversity</i> and ~~/or habitats~~ <u>proposed mitigation measures, including:</u> a) <u>opportunities for enhancement and restoration;</u> b) <u>methods proposed to monitor or inspect the works undertaken;</u> c) <u>the timing of works to minimise adverse effects on threatened or at risk indigenous species; and</u> d) <u>management of potential adverse effects through a <i>Council Authorised Biodiversity Management Plan</i>.</u> 4. The natural character of the riparian margin and the effects of the activity on landscape values and the ability to restore,
